

eCONNECTIVITY-DELIVERY CONFIRMATION

OVERVIEW

eCONNECTIVITY CONCEPT: Enable faster and accurate decision making by removing time intensive, error-prone, manual processes.

DEFINITION

DELIVERY CONFIRMATION: Electronic P.O. Request/Response allows distributor to match supplier seed delivery to internal order.

BENEFITS

RETAILER:

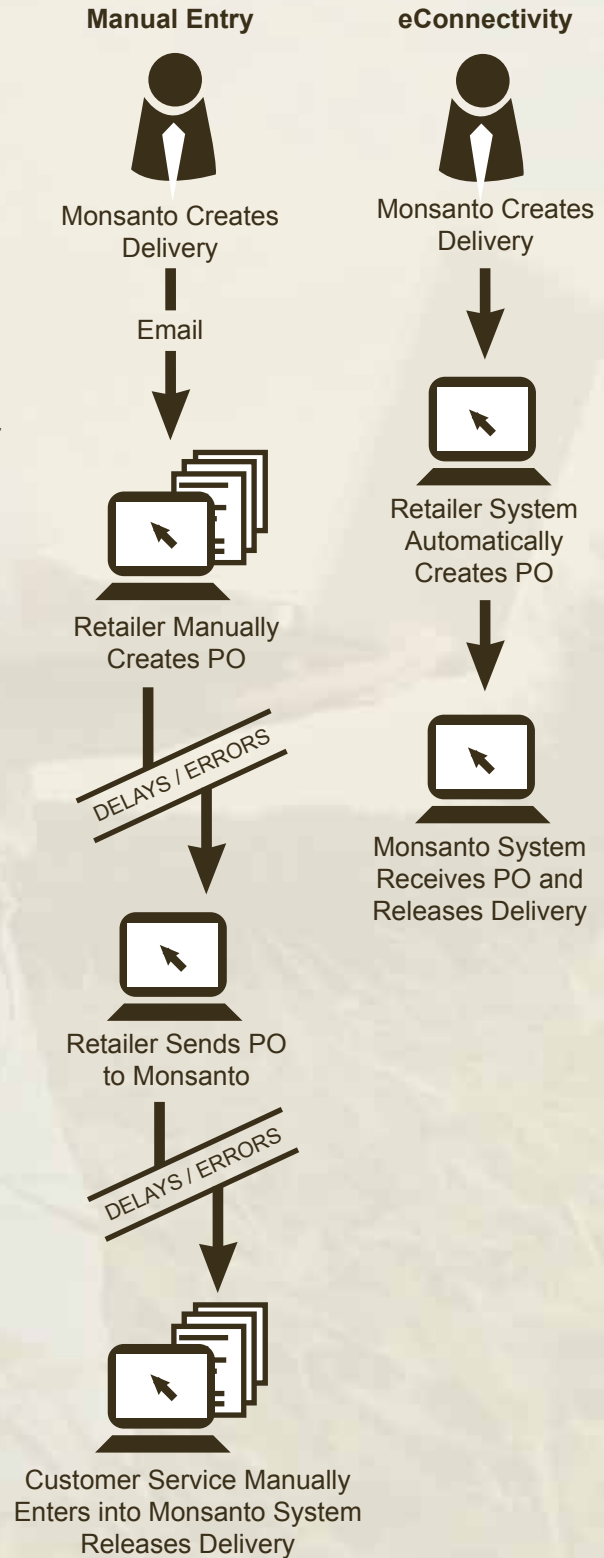

- Improves accuracy
- More timely data received at receiving location

HEADQUARTERS:

- Eliminates current email or fax
- Automatically entered into 'in-house' system
- Reduces data entry and possible errors

MONSANTO:

- Allows for single point of entry

The details are for information purposes only. Retail accounts have multiple connectivity options and should contact their software provider for more information.
