

# eCONNECTIVITY-SEED PRICE SHEET

## OVERVIEW

**eCONNECTIVITY CONCEPT:** Enable faster and accurate decision making by removing time intensive, error-prone, manual processes.

## DEFINITION

**SEED PRICE SHEET:** Seed product pricing is transmitted electronically from Monsanto's system to our retail partner's business system.

## BENEFITS

### RETAILER:

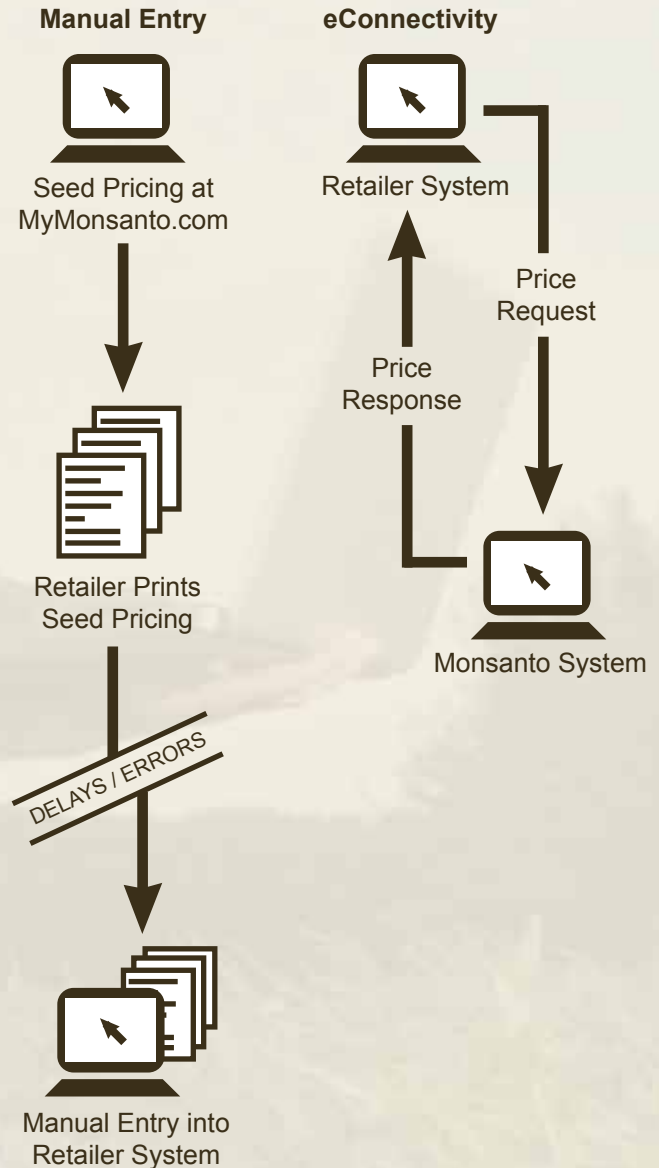

- Accurate seed product pricing is available in the retailer's business system

### HEADQUARTERS:

- Manually updating downstream business application systems with correct cost and product related data is significantly reduced, allowing more time for other business activities
- Lowers costs due to spending less time resolving data errors from multiple and duplicate entry points

### MONSANTO:

- Demonstrates professional partnership with distribution chain
- Increases accuracy, security and speed of seed pricing information delivery to our partners
